These numbers do not represent the total count of persons with SMI/SED. Not all agencies were able to fully report SMI/SED status to us for this fiscal year. We were able to identify additional SMI/SED by looking at assessments that are only done on this population. Unfortunately, this technique could not be fully applied to children as agencies had not sent us data on the child assessments. Data from other sources indicate that the total number of SMI/SED is 18,311 (7343 adults and 10,968 children).

State Used Federal SED Definition? No 16

State Notes:

14a Gender None

Age None

Race None

Overall These numbers do not represent the total count of persons with SMI/SED. Not all agencies were able to fully report SMI/SED status to us for this fiscal year. We were able to identify additional SMI/SED by looking at assessments that are only done on this population. Unfortunately, this technique could not be fully applied to children as agencies had not sent us data on the child assessments. Data from other sources indicate that the total number of SMI/SED is 18,311 (7343 adults and 10,968 children).

Note:

Mental Health Adults in Labor Force is the sum of MH consumers employed plus unemployed.

Adults Served in Community excludes persons for whom employment status was unknown.

MH Consumers Employed as % of Total Adults Served uses Adults Served as the denominator.

MH Consumers Employed as % of Adults served in Labor Force uses persons employed or Unemployed as the denominator.

This table uses data from URS/DIG Table 4.

State Notes:

Employment information was collected on only the adult State eligible (ages 18-59) population. The numbers in the No Data Available row therefore reflect the non-eligible consumers, people over the age of 59, and missing data. 31,495 is the number of adults and elders in the system and corresponds to the sum of the total cells for age groups 18-20, 21-64, 65-74, 75+, and Not Available in Tbl. 2a.
